Dear Sirs,

I cannot believe what I am reading in the news.

Instead of effectively curtailing Microsofts ability to use its dominance to disadvantage competitors, you make them donate software (which costs hardly anything to produce) to schools. In essence, this enables them to gain marketshare in this market as well, and seriously hurt one of their few remaining competitors - Apple.

This is as sad as it is counter productive.

Best regards,  
Jonas Haraldson  
Stockholm, Sweden
